## TRENTINO, ITALY

Produced in Northern Italy's Trentino region with grapes sourced from select hillside vineyard sites, Alta Luna offers expressive wines from the region's native varietals.

The Alta Luna vineyards are situated along the foothills of the Adige Valley, bordering Trentino and Alto Adige, in the town of Roverè delle Luna. These high-altitude vineyards benefit from an ideal aspect and unique, well-draining glacial-alluvial soils. The climate in this region makes all the difference. Northern Trentino enjoys warm temperatures in the summer, contributing to the development of ripe concentrated fruit and elegant aromatics, while the cool evenings maintain the fruit's acidity: the result are wines that are refreshing and well-balanced.

Pinot Grigio Dolomiti IGT  
Sauvignon Blanc Dolomiti IGT

- Alta Luna is an exciting range from the Cavit winery in Trentino, Italy with Anselmo Martini as head winemaker. The range is inspired by the legacy of David S. Taub, "The Father of Pinot Grigio," who spent 40 years pursuing his dream with world-renown winemakers to bring Pinot Grigio and other indigenous varieties from Trentino to US consumers.
- Established in 2011, Alta Luna offers a quartet of wines that appeal to a wide range of consumer preferences. With a name that means "High Moon" in Italian, Alta Luna's sleek and modern packaging features a water-colored depiction of the Dolomite mountains.
- The vineyards for these wines are carefully tended by the families in the Cavit local cooperative, each of which takes meticulous care of the vineyards and fruit which make these high altitude wines so expressive and special.
- The Vigneti delle Dolomiti IGT title was introduced in 1996, just after the IGT category was established; it covers wines from the northern appellation of Trentino-Alto Adige and allows for wine to be made in any style: red, white, rosé and sparkling
