POINTS

DECEMBER 2021

...Plush yet high-toned currant and plum-fruit characteristics are followed by a sanguine note—like iodine—along with cedar, mint, pencil lead and a seaweed, umami-like nuance. The mouthfeel is distinctive... the fruit silky and tangy. There's power here but drinkability too. Cellar for several years for added complexity or crack open now with... cold weather cuisine. —C.P.

FEBRUARY 2020

...Promising... brighter and fresher on the nose, with bigger and redder fruit notes. It's also full-bodied and plush, loaded with cherries and raspberries, all on a plush cushion of creamy, vanilla-laden oak. – J.C.
