JANUARY 2023

The 2020 Riesling Schlossberg Grand Cru grows on granite with a little gneiss and benefits from the coolness of the altitude... Green apple and a brighter, lighter citrus shines on the nose. It's beautifully cool, utterly stony, precise and concentrated... perfume of lemon, green pear and apple. (Bone-dry) -A.K.

JULY 2022

This has rich stone-fruit aromas and a touch of something exotic, the balance of fruit and mineral freshness very impressive, the power and concentration underplayed until you get to the long, complete finish, where they show their hand strongly... -J.S.

Wine Spectator

WEB 2023

...Shows both richness and precision, with pronounced lemon and grapefruit flavors that are mouthwatering and rich. Reveals a citrus-edged bitterness that adds nice contrast, while crushed mineral elements impart a chalky texture... this is definitely one for the cellar... -K.B.

NOVEMBER 2023

...Corduroylike texture at this stage, layers peel off with air. It starts with subtle notes of flint and match stick, then mixing in fresh quince, nectarine, green pear and lemon-curd flavors, with a long finish. The acidity needs a few years to fully integrate, but this has an admirable potential. -A.Z.

MARCH 2023

...Warm and balanced, ripe and very elegant fruit with flinty notes. Supple, round and juicy on the palate, with fine tannins and lingering salinity, this is a quite powerful Schlossberg with a still slightly bitter finish. This will develop with more bottle age. ... -S.R.
