ANDREA LONARDI
TECHNICAL DIRECTOR

- Bertani's 150+ year history is dotted with groundbreaking initiatives and royal accreditation.
- Bertani offers the full range of wines from the Veneto from its every day, food friendly offerings, to cru and legacy wines which capture the essence of Valpolicella in an historic and progressive style.
- Since 1958, Bertani's Amarone della Valpolicella Classico has kept the same iconic packaging...reflecting the dedication to the same vineyard sources, traditional method, and style. This is the true definition of integrity, which is a core value at Bertani. Bertani has the most extensive Amarone Classico library vintages in Europe of any one single wine, dating back to 1967 (commercially available).
- Their dedication to this mission earned the winery recognition as Gambero Rosso's 2023 Winery of the Year.
- Andrea Lonardi, Director of Operations for Bertani and Angelini Estates, was born into a Valpolicella winemaking family and has been Bertani's head winemaker since 2012. As a Master of Wine (August 2023), Andrea brings a global perspective to the winemaking at Bertani. The goal at Bertani is to express as cleanly and clearly as possible the distinct traditions and sense of place unique to the Valpolicella. In fact, Andrea's research paper for completion of the MW program focused on this. Notably, Andrea is one of only two Masters of Wine based in Italy, and one of only 414 MWs in the entire world.
