POINTS  
vinous

MAY 2020

...Citrus and orchard fruit and fig flavors stain the palate and become deeper with air, picking up a touch of spiciness and showing powerful back-end cut. The mineral quality repeats emphatically on a strikingly long, sharply incisive finish that leaves juicy pear and floral notes behind. - J.R.

OCTOBER 2019

Attractive white peaches and apricots and a floral edge, too. This has a very assertively chalky, fresh and crisp texture with some terrific line and length. Has the potential to improve and be even more interesting with age. Drink or hold. - J.S.

DECEMBER 2019

...A tight, crisp rendering of the appellation, flecked with notes of peppery spice and anise. Fermented and aged in 500-liter barrels (20% to 25% new), it's medium to full-bodied but streamlined and linear, with the potential to improve with short-term cellaring. - J.C.
