

## Distinctly South African

WINES WITH A TOUCH OF FRENCH FLAIR

### THE HISTORY

- L'Avenir estate was established in 1992 in the Stellenbosch Region but our soils have been under vine since the beginning of the regions history
- The Indian Ocean is less than 13 miles away—a cooling influence against the late afternoon Cape sun
- The farm lies in a cleft in the land, so slopes face in every direction, creating a natural diversity of styles
- L'Avenir focuses on producing elegant wines which showcase their unique setting

### THE WINE

- Constant emphasis on expressing the uniqueness of our Terroir in all our wines
- A focus on tipping our hat to the heritage of Chenin Blanc while embracing the innovation inherent in Pinotage
- 68 ha based in the foothills of the Simonsberg mountain range within the “Golden Triangle”—the benchmark for South African wines
- Soil types are varied on the estate but include the local famed Glenrosa and a vein of disintegrated shale, which is particularly suited to Pinotage vines, also runs through the property
