

# INFINÉ 1939

TRENTINO, ITALY

In 1939, David S. Taub, the “father of Pinot Grigio,” was born. Beyond introducing Pinot Grigio to America, his quest was to showcase Italy’s finest wines. He dedicated 36 years to pursuing his dream with world-renown winemakers; that effort culminated in this pure expression of Pinot Grigio from the most unique Trentino vineyards. His vision lives on with Infine 1939.

Infine 1939 is a project over two years in the making, personally driven by Marc D. Taub, President & CEO of Taub Family Companies, in commemoration of his father David’s life-long drive to introduce America to wine, most notably Pinot Grigio from northern Italy.

MARC D. TAUB &  
DAVID S. TAUB

- The project to bring Infine 1939 to life was driven personally by Marc Taub and his son Jake, in commemoration of his father David -- “The Father of Pinot Grigio” and an avid glass collector. The first vintage was 2015 – introduced in 2017 which was the 40th anniversary of David’s introduction of Pinot Grigio to the US.
- After a multi-year study of the region, in collaboration with the Institute of Viticulture San Michele all’Adige, Italy’s premier winemaking school, the ideal vines for the production of Infine were identified. Older vines at altitudes of 1,300ft asl of two particular clones that are low yielding, produce smaller, sparser bunches and adapt better to the climates and soils in Trentino.
- Partnering with renowned Italian winemaker Carlo Ferrini, this limited production wine has been masterfully produced. An incredibly hands-on approach was taken in the cultivating of the grapes, with daily attention to the conditions in the specific plots.
- Totally unique packaging with a custom glass bottle design. An octagonal indentation frames the label perfectly. Elegant detail inlaid in the glass on the bottom of the bottle was inspired by the infinity concept.

# INFINÉ 1939

## INFINÉ 1939 PINOT GRIGIO TRENTINO DOC *Trentino, Italy*

The Pinot Grigio vineyards sit at the highest possible altitudes that the grape variety can be cultivated in Trentino. At 1300 ft asl, this is considered extreme altitudes for Pinot Grigio; however, it leads to an intensified expression of the grape with pronounced aromatic and mineral components which also develop beautifully over time. Grapes are hand picked from two particular vineyard sites – Bleggio Superiore and Valle di Cavedine. Two particular clones of Pinot Grigio were identified by the Institute of Viticulture San Michele all'Adige that produce smaller, sparser bunches and adapt better to the climates and soils in Trentino.

- 100% Pinot Grigio
- The bunches are carefully chosen within the vineyard and are harvested exclusively by hand
- Intensely fruity aromas on the nose reminiscent of green apple and pear enhanced with mineral and citrus notes
- On the palate, a wine of substantial structure and complexity with a particularly high acidity for the variety and astounding sapidity and minerality
- A full-bodied Pinot Grigio

## INFINÉ 1939 AT LAST CUVÉE VIGNETI DELLE DOLIMITI *Trentino, Italy*

For At Last, grapes are from the IGT Vigneti Delle Dolomiti Valle dei Laghi, nestled between the mountains at the feet of the Dolomites. This area showcases a variety of aromatic international and indigenous white grape varieties making it ideal for the production of a complex, high quality, and age-worthy cuvée.

- Sauvignon, Chardonnay, Gewurztraminer and Riesling Renano
- Grapes are hand picked from two vineyard sites covered in glacial and calcareous soils
- Complex and elegant bouquet with fruity notes of fresh citrus and white flesh fruits, well-combined with tropical notes of pineapple and delicate spicy aromas of sage and field balm
- Flavors echo the aromas; well structured, with exceptional mineral qualities and a harmonious and fresh finish
