PLANETA

ETNA BIANCO DOC 2016

BACKGROUND

Planeta encompasses six distinct wine estates across Sicily, each one inspired and constructed in harmony with its surroundings and dedicated to its terroir. Planeta's journey begins at Sambuca di Sicilia, on the estate owned by the family since the 1600s. Here on Italy's most enchanting island, three enthusiastic young Sicilians, Alessio, Francesca and Santi Planeta, under the guidance of Diego Planeta, began their winemaking venture in the mid-1980s. Subsequent years were spent matching the extraordinarily diverse Sicilian soils with both indigenous and international varieties. Years of careful research paid off when the Planeta wines were met with immediate critical acclaim upon introduction in the U.S. in the late 1990s.

All of the company's activities have a single theme; environmental sustainability. Planeta engages in the use of solar panels and biomass production, principally pruning residues to produce energy, reusing and recycling of all materials used in the production cycle, and the exclusive use of recycled paper for packing and printed materials. Because the land is a collective benefit, Planeta considers it is a duty to make every effort in preserving it.
