DECEMBER 2016

...Significantly cleaner and more precise than the 2013, but there is also higher ripeness, but without excess. This is significantly different from the 2013... the quality level is similar, which is very high for a wine produced in large quantities, like the 150,000 bottles of this vintage. There are some lactic aromas and the fruit seems to get more focused and the hints of ripeness receded with time in the glass. – L.G.
