

TAUB FAMILY VINEYARDS

NAPA VALLEY, UNITED STATES

Taub Family Vineyards was born out of a dream four generations in the making. Marty Taub played an instrumental role in the wine business from the early 1930s, and his son David built upon his dream. Marc D. Taub, the third generation, grew up with a deep appreciation for the art of winemaking and had a vision of one day making his own wines.

This came to fruition in 2013, when Marc, who today works side by side with son Jake, acquired Napa Valley producer Heritance – which later evolved to Taub Family Vineyards. The winery produces elegant, pure expressions of its respective AVAs and vineyard microsites, focusing exclusively on mid-valley sites in Rutherford, Oakville, Mount Veeder, and Howell Mountain with limited-release single vineyard wines.

- The name Heritance is derived from Heritance & Inheritance, with the valley oak on the label representing the Taub family's roots in California and the diamond "seed" planted for future generations.
- With the 2015 Cabernets and 2017 Sauv Blanc, the Heritance evolved into Taub Family Vineyards symbolizing the strength of the family's commitment, dedication and connection to Napa Valley.
- The winery produces elegant, pure expressions of its respective mid-valley and mountain AVAs and vineyard microsites including those of the Beckstoffer & Morisoli families.
- Taub Family Vineyards is a proud member of Napa Valley Vintners Association and the Rutherford Dust Society contributing to the development, promotion and sustainability of the region.
