

JEAN-LUC COLOMBO

RHÔNE VALLEY, FRANCE

Innovation, passion and dedication are what drives Jean-Luc and Anne Colombo, whose contributions to Rhône Valley winemaking are unparalleled. A devotee of the Syrah grape and armed with a pharmacy degree, Jean-Luc and his wife, Anne, opened their wine laboratory in 1984, "Centre Oenologique des Côtes du Rhône" and quickly developed a thriving reputation as a wine consultant throughout France. The Colombo's innovative approach in the northern appellation of Cornas was nothing short of revolutionary. For their significant life-long contributions to their country, both Jean-Luc and Anne have been awarded the French Legion of Honor, France's highest civilian award. An active member of the AOC Cornas Syndicate, Anne was elected President in April 2016, supporting the appellation on all educational, legal and communication matters. Their daughter Laure, a world traveler, brings grace and freshness to the winery and is now the official winemaker.

- The winery, founded in 1984 by Jean-Luc Colombo and Anne Colombo, revolutionized the small appellation of Cornas with modern viticultural vinification practices. Along with adopting eco-friendly farming practices in their vineyards which are certified by Ecocert (EU organic starting with the 2016 vintage), Jean-Luc advises more than 100 producers and travels the world to promote the wines of the Rhône.
- All of Jean Luc Colombo's wines are highly personalized, sourced from Colombo's own vineyards and from carefully selected domains under his direct consultation. Each wine has a special name and custom watercolor label which brings to life a part of the Colombo history.
- The Colombo's & the Taub's have been committed to solving the worldwide decline in bee populations. Their Bee Helpful Program donates a portion of each bottle sold of Les Abeilles to the UC Davis Department of Entomology for research.
- Highly acclaimed wines year after year with more than three hundred 90+ ratings on all Cornas wines.
